

INFINITE Flexibility

In today's rapidly changing work environments, SturdiKwik delivers infinite flexibility through a variety of ingenious options that provide the perfect fit. As your needs change, SturdiKwik can change with you quickly and easily. Add a

shelf, or extend a work area. Or, create a mobile assembly station for maximum convenience. With SturdiKwik, flexibility is built in.

Double-Sided Surface

Convert a single-sided workstation into a double-sided workstation by adding a rear leg support and an additional worksurface

Dual Bay Workstation

Create a dual bay workstation by using a foot-space friendly center column and a single worksurface, which also allows variable shelving heights in both bays

Versatile Shelving

Shelves are 13", 16", and 19" deep, have 400 lbs. per shelf load rating, and feature built-in 14- and 22- degree tilting capabilities

KEWAUNEE'S
SturdiKwik™

Kewaunee's SturdiKwik workbench system takes The Power Of Ingenuity back to the idea of form following function. SturdiKwik incorporates a high-quality, rugged, easy-to-assemble system that's flexible enough to adapt to changing needs. SturdiKwik's simplicity of design and simplicity of construction offers value that's simply easy on the budget.

QUICK DELIVERY,
Quick Assembly

A SturdiKwik workbench can ship in as little as 48 hours with our KwikShip program*. And SturdiKwik is ready to go to work in under five minutes — all it takes for full assembly is a Phillips head screwdriver and a 7/16" socket wrench. Plus, when you need to expand or reconfigure, SturdiKwik responds to your needs. Additional columns, shelves, and other options enable a transition that's quick and trouble-free. Fast, easy, and made to last, that's the foundation of the SturdiKwik system.

EMPOWERING
Options

Whether for electronic assembly, testing, laboratory work, or nearly any type of production, the SturdiKwik system will meet your needs with reliable, sturdy construction at a cost-effective price that's right in your budget. Choose from standard Gray or three non-standard colors: Almond, Black, or Light Neutral. Custom colors are also available. For sensitive electronic areas, SturdiKwik is also available with ESD options that reduce electrostatic discharge events.

**Low cost.
High quality.
Fast turnaround.**

STURDIKWIK

It's easy to customize a SturdiKwik system to meet your needs through a wide range of sizes and other adaptable accessories.

Standard Worksurface
For common uprights. Available in six widths from 24" to 72" and depths of 30" and 36"

Extra Wide Worksurface
Use to create continuous worksurfaces without gaps when stand-alone benches are placed side by side

Wire Management
Conceal wires with the built-in horizontal wire trough (trough cover sold separately)

Shelving
Choose from widths of 24" to 60" and depths of 13", 16", and 19"

Security Clips
Prevents shelves, worksurfaces, and accessories from accidental dislodgment

Bin Bar
For easy access of small parts and accessories

Task Light
Brightens the work area for greater visibility

Mobile Unit
Three-inch casters are field interchangeable with leveling glides that enable easy transformation to portable workstations

Power Bar
Puts 15 amp electrical power where you need it (includes a built-in circuit breaker and 9' grounded cord)

Tool Bar
Convenient overhead trolley suspension for a wide variety of tools

* See ordering guide for components available in the KwikShip program.
